

An Opportunity for the Future... You, Your Children, and Your School

Would you like to be earning income and still spend time with your preschool age children? Would you like to have the same vacation days as your school aged children? Are health, dental, long-term care and life insurance and a reliable income concerns for your family? Would you also like to participate in a great retirement plan? Are you looking for the opportunity to further empower yourself and take control of your future? Would you prefer working with a rock solid employer who promotes teamwork and respects each individual's worth, an employer who offers tuition assistance for professional development and makes advancement and greater opportunities available to you?

Perhaps you should consider becoming a licensed child transporter for Fairfax County Public Schools (FCPS). Professional drivers for our kids, the most precious cargo in our county, are currently in short supply. If you are reliable and of good character; physically capable, have a good driving record and can complete four weeks of the best paid drivers training in the nation, there is a place for you on our exclusive professional driving team.

The tangible benefits of working for FCPS are that you receive full pay (\$16.57 an hour) during your four weeks of training. When you work from 4 to 8 hours a day you are eligible for full time benefits. You can save thousands of dollars on day care costs because your preschool children or grandchildren can ride with you. You and your children have the same vacation time and you accrue both sick and personal leave time. You are also eligible for a \$500 signing bonus.

The intangible benefits are in the difference you can make in so many children's lives. Greeting and encouraging them each day, celebrating their triumphs or consoling them on their disappointments, are some examples of the valuable contributions you can make in this position. You are a vital connection between the parents and the teachers and you are a critical thread in the fabric of our school's educational system.

Don't delay, call (571) 423-3000 and make an appointment for a no-obligation professional driver information session. You owe this to yourself, your children, your PTA and your school system. If you know of someone else who also could benefit, please pass this message along.
